- Parks
- Small yards
- Parking areas
- Loading ramps

**The PowerBoss® 26 side broom
can be raised or lowered.**

Minuteman is a full line manufacturer of maintenance products including critical filter vacuums, industrial and commercial vacuums, sweepers, scrubbers, floor and carpet machines, PowerBoss® sweepers and scrubbers, Parker Sweeper® Litter Vacs and Multi-Clean® chemicals for industrial, commercial, and institutional facilities.

Easy, Quick Sweep-Ups.

Ideal for machine shops, stockrooms, parks, small yards, parking areas and loading ramps, the PowerBoss® 26 is lightweight, easy to maneuver and sweeps five to seven times faster than manual sweeping. This convenient sweeper can clean up to 31,000 square feet per hour.

Durable, Rugged Workhorse.

The PowerBoss 26 features an injection molded, structural foam polyethylene body that ensures durability, prevents rust and adds long life. In addition, the molded polyethylene hopper collects 1.4 cu. ft. of trash, dirt, dust, pebbles, rocks and more.

Side Brush Sweeps Away from Corners and Walls.

When lowered, a rotary side brush allows the operator to sweep dust and dirt away from walls and out of corners into the path of the wide main broom, which deposits it directly into a large hopper.

Easy Handling and Storage.

The PowerBoss 26 fits easily through any standard-size door and the side brush can be lifted for transport and increased maneuverability. The efficient design of the PowerBoss 26 Manual Sweeper includes height adjustment knobs to raise or lower the side brush and the 20", 2 piece, main broom, which is 10" in diameter and offers 10 separate durable nylon broom rails. The "push bar" handle was designed to easily fold-down for convenient storage in an upright position.

Specifications:

PowerBoss® 36

Sweeping Width	26" (66cm)
Construction	Polyethylene
Dust Control	Rubber Flaps
Hopper Capacity	1.4 cu. Feet
Sweeping Area/hr.	31,000 sq. feet (2,880 m ²)
